TAB VP Ray Liu Keynote Speaker

We are delighted to announce that our first keynote speaker will be Professor K. J. Ray Liu, Vice President of the IEEE Technical Activities Board. TAB is the IEEE board to which all IEEE societies, including the Computer Society reports. Professor Liu's topic is Wireless AI/ Smart Radios for Smart Life. More detail can be found [here](#).

Three New Symposia in Milwaukee

COMPSAC offers academic and practitioner professionals a broad range of computing topics for authors and attendees. For 2019, we have added three new symposia: Autonomous Systems (ASYS), Smart IOT (SIOT), and Smart and Connected Health (SCH).

Harley Davidson HQ/Museum to Host Awards Banquet

Each year COMPSAC conducts a banquet that honors volunteers who have made exceptional contributing to the organization of the conference. In 2018, in Tokyo, the Computer Society, acknowledging COMPSAC's outstanding worldwide reputation, requested COMPSAC to present its Computer Pioneer Award, and its Technical Achievement Award at this banquet. In 2019, this banquet will be held at the Harley Davidson world headquarters in Milwaukee. Attendees will be able to visit the Harley Davidson Museum adjacent to the banquet venue.

Milwaukee, Wisconsin, USA— A great place to visit

Milwaukee's Lakefront area is one of the prettiest downtown areas of any US city. Whether your interest is shopping in boutique stores and galleries; dining al fresco on the shores of Lake Michigan; or simply exploring the city's many pleasant walking trails, parks, and attractions, visiting here is time well spent. One of the most prominent landmarks is the War Memorial Center commemorating the dead of WWII and the Korean War. A newer landmark (the War Memorial was built in the 50s) is the Milwaukee Art Museum, a striking building with collections that include American and European works from the 19th and 20th centuries. And as you walk around the shoreline to Discovery World, you'll also see the Denis Sullivan, a 137-foot replica of the tall ships once so common here. Also of note are the Municipal Pier and the Henry Maier Festival Grounds, where the famous Summerfest is held.
