Recording Your Video

You can use any software application you wish to record your MP4 video. Some available options are listed below:

- [Zoom](#) - [Recording Presentations with Zoom](#) (PDF) | ([Video version](#) .mp4)
- [Screencast-o-matic](#)
- [OBS Studio](#)

Verification:

- To encode/re-encode your video in the right format, you can use the free [Handbrake](#)
- To check that your video is in the right format, you can use the free software [MediaInfo](#)

After recording your talk, please rewatch it to ensure that the video and audio are recorded correctly. It's a good idea to do a short test recording first to verify that your settings are correct before investing the time to do the full presentation.
