2022 IEEE 46th Annual Computers, Software, and Applications Conference (COMPSAC)

COMPSAC 2022

Table of Contents

Message from the COMPSAC Standing Committee Chair ..... **xlii**
Sorel Reisman (California State University, Fullerton, USA)

Message from the COMPSAC Standing Committee Vice Chairs ..... **xlv**
Sheikh Iqbal Ahamed (Marquette University, USA) and Mohammad Zulkernine (Queen's University, Canada)

Message from the COMPSAC 2022 Program Chairs-in-Chief ..... **xlvi**
Hong Va Leong (Hong Kong Polytechnic University, Hong Kong), Sahra Sedigh Sarvestani (Missouri University of Science & Technology, USA), and Yuuichi Teranishi (National Institute of Information & Communications Technology, Japan)

IEEE COMPSAC 2022 Co-Located Workshops Summary ..... **xlviii**
Alfredo Cuzzocrea (iDEA Lab, University of Calabria, Italy; LORIA, University of Lorraine Nancy, France), Hiroki Kashiwazaki (National Institute of Informatics, Japan), Dave Towey (University of Nottingham Ningbo, China), and Ji-Jiang Yang (Tsinghua University, China)

COMPSAC 2022 Committees ..... **li**

COMPSAC 2022 Symposia

ASYS: Autonomous Systems

Automatic Monitoring System for Engines Motion Attitude Based on Video Image Detection 1
Yiwei Fang (Shanghai Jiao Tong University, China), Guan Wang (Beijing Institute of Astronautical Systems Engineering, China), Ruilin Zeng (Shanghai Jiao Tong University, China), Xiaoyu Wang (Beijing Institute of Astronautical Systems Engineering, China), and Hai-Bao Chen (Shanghai Jiao Tong University, China)

Deep Speaker Embedding with Multi-part Information Aggregation in Frequency-Time Domain for ASV 8
Xiao Li (Beijing University of Posts and Telecommunications, China; Academy of Broadcasting Science, National Radio and Television Administration, China), Xiao Chen (Beijing University of Posts and Telecommunications, China), Dongfei Wang (Academy of Broadcasting Science, National Radio and Television Administration, China), Zhijun Guo (Beijing University of Posts and Telecommunications, China), and Kun Niu (Beijing University of Posts and Telecommunications, China)

Distributed and Asynchronous Planning and Execution for Multi-agent Systems Through Short-Sighted Conflict Resolution 14
Yuki Miyashita (Shimizu Corporation, Japan), Tomoki Yamauchi (Waseda University, Japan), and Toshiharu Sugawara (Waseda University, Japan)

Development of ROS-Based Small Unmanned Platform for Acquiring Autonomous Driving Dataset in Various Places and Weather Conditions 24
Ji-il Park (Korea Advanced Institute of Science and Technology, Republic of Korea), Minseong Choi (Korea Advanced Institute of Science and Technology, Republic of Korea), Seungho Han (Korea Advanced Institute of Science and Technology, Republic of Korea), Yeongseok Lee (Korea Advanced Institute of Science and Technology, Republic of Korea), Jinwoo Cho (Korea Army Academy at Yeongcheon, Republic of Korea), Hyoseo Choi (Korea Advanced Institute of Science and Technology, Republic of Korea), Minsu Cho (Korea Advanced Institute of Science and Technology, Republic of Korea), Minyoung Lee (Korea Institute of Machinery and Materials, Republic of Korea), and Kyung-Soo Kim (Korea Advanced Institute of Science and Technology, Republic of Korea)

Human-in-the-Loop Online Multi-agent Approach to Increase Trustworthiness in ML Models Through Trust Scores and Data Augmentation 32
Gusseppe Bravo-Rocca (Barcelona Supercomputing Center, Spain), Peini Liu (Barcelona Supercomputing Center, Spain), Jordi Guitart (Barcelona Supercomputing Center, Spain), Ajay Dholakia (Lenovo, USA), David Ellison (Lenovo, USA), and Miroslav Hodak (Lenovo, USA)

Efficient Reinforcement Learning from Demonstration using Local Ensemble and Reparameterization with Split and Merge of Expert Policies 38
Yu Wang (University of Notre Dame, USA) and Fang Liu (University of Notre Dame, USA)

CAP: Computer Architecture & Platforms

A Reliability-Oriented Faults Taxonomy and a Recovery-Oriented Methodological Approach for Systems Resilience 48
Carlo Vitucci (Ericsson AB, Sweden), Daniel Sundmark (Mälardalen University, Sweden), Marcus Jägemar (Ericsson AB, Sweden), Jakob Danielsson (Ericsson AB, Sweden), Alf Larsson (Ericsson AB, Sweden), and Thomas Nolte (Mälardalen University, Sweden)

Integrated Construction of Service Function Chain and Business System Based on Colored Petri Net 56
Yintan Ai (Inner Mongolia University, China), Yajun Cui (China Telecom Corporation Limited Inner Mongolia Branch, China), Zhenyu Liu (Inner Mongolia University, China), Xiaomin Zhang (Inner Mongolia University, China), Hua Li (Inner Mongolia University, China), and Xianrong Wang (Inner Mongolia University, China)

Failure Modes and Failure Mitigation in GPGPUs: A Reference Model and Its Application 62
Francesco Terrosi (University of Florence, Italy), Andrea Ceccarelli (University of Florence, Italy), and Andrea Bondavalli (University of Florence, Italy)

LIBNVCD: An Extendable and User-Friendly Multi-GPU Performance Measurement Tool 73
Holland Schutte (Modern Mirron, Inc, USA), Chase Phelps (Texas State University, USA), Aniruddha Marathe (Lawrence Livermore National Laboratory, USA), and Tanzima Z. Islam (Texas State University, USA)

Towards Model Checking Approach for Smart Contract Validation in the EIP-1559 Ethereum 83
Rim Ben Fekih (University of Sousse, Tunisia), Mariem Lahami (University of Sfax, Tunisia), Mohamed Jmaiel (University of Sfax, Tunisia), Ahmed Ben Ali (Sofrecom, Tunisia), and Philippe Genestier (Orange labs, France)

Reliable Visibility Algorithms for Emergency Stop Systems in Smart Industries 89
Gabriele Capannini (Mälardalen University, Sweden), Jan Carlson (Mälardalen University, Sweden), and Roger Mellander (ABB Robotics, Sweden)

CELT: Computing Education & Learning Technologies

eShadow+: Mixed Reality Storytelling Inspired by Traditional Shadow Theatre 95
Nektarios Moumoutzis (Bulgarian Academy of Sciences, Bulgaria), Marios Christoulakis (Technical University of Crete, Greece), Chara Xanthaki (Directorate of Secondary Education Chania, Greece), Yiannis Maragoudakis (Technical University of Crete, Greece), Stavros Christodoulakis (Technical University of Crete, Greece), Desislava Paneva-Marinova (Bulgarian Academy of Sciences, Bulgaria), and Lilia Pavlova (Bulgarian Academy of Sciences, Bulgaria)

A Software Architecture for Developing Distributed Games that Teach Coding and Algorithmic Thinking 101
Nearchos Paspallis (University of Central Lancashire, Cyprus (UCLan Cyprus)), Nicos Kasenides (University of Central Lancashire, Cyprus (UCLan Cyprus)), and Andriani Piki (University of Central Lancashire, Cyprus (UCLan Cyprus))

CCSS: An Effective Object Detection System for Classroom Crowd Statistics 111
Kang Yi (Nankai University, China), Siyu Yan (Nankai University, China), Lei Liu (Nankai University, China), Jingwen Zhu (Nankai University, China), Weiyun Liang (Nankai University, China), and Jing Xu (Nankai University, China)

Towards Designing Shared Digital Forensics Instructional Materials 117
Weifeng Xu (University of Baltimore, USA), Lin Deng (Towson University, USA), and Dianxiang Xu (University of Missouri at Kansas City, USA)

An Intelligent Tutoring System for API Misuse Correction by Instant Quality Feedback 123
Rui Zhao (University of Nebraska at Omaha), Harvey Siy (University of Nebraska at Omaha), Chulwoo Pack (University of Nebraska-Lincoln, USA), Leen-Kiat Soh (University of Nebraska-Lincoln, USA), and Myoungkyu Song (University of Nebraska at Omaha)

SQL Murder Mystery: A Serious Game to Learn Querying Databases 129
Lorenzo Canale (Politecnico di Torino, Italy) and Laura Farinetti (Politecnico di Torino, Italy)

Teachers' Perception of Higher Education in a Transition Scenario 139
Marina Marchisio (University of Turin, Italy), Fabio Roman (University of Turin, Italy), Matteo Sacchet (University of Turin, Italy), and Enrico Spinello (Education and Training Command and School of Applied Military Studies, Italy)

A 4C Model for Hyflex Classrooms 145
Henry C. B. Chan (The Hong Kong Polytechnic University), Yi Dou (The Hong Kong Polytechnic University), Yue Jiang (The Hong Kong Polytechnic University), and Ping Li (The Hong Kong Polytechnic University)

Towards Trustworthy Tracing Responsibility of Collaborative Software Engineering Artefacts of Student's Software Projects 151
João Almeida (NOVA LINCS, Portugal) and Vasco Amaral (NOVA LINCS, Portugal)

A Simulation Framework for UML Education 161
Miguel Appleton Fernandes (NOVA University of Lisbon, Portugal) and Vasco Amaral (NOVA University of Lisbon, Portugal)

Data Driven Learning Activities Within a Digital Learning Environment to Study the Specialized Language of Mathematics 167
Elisa Corino (Università di Torino, Italia), Cecilia Fissore (Università di Torino, Italia), and Marina Marchisio (Università di Torino, Italia)

Evolution of the Historian Data Entry Application: Supporting Transcribathons in the Digital Humanities Through MDD 177
Alexander Schieweck (University of Limerick, Ireland; Lero, the Science Foundation Ireland Research Centre for Software, Limerick, Ireland), Rachel Murphy (University of Limerick, Ireland), Rafflesia Khan (University of Limerick, Ireland), Ciara Breathnach (University of Limerick, Ireland; HRI, Health Research Institute, University of Limerick, Ireland), and Tiziana Margaria (University of Limerick, Ireland; Lero, the Science Foundation Ireland Research Centre for Software, Limerick, Ireland; HRI, Health Research Institute, University of Limerick, Ireland)

Early Detection of At-Risk Students in a Calculus Course 187
Akshay Kumar Dileep (Arizona State University, USA), Ajay Bansal (Arizona State University, USA), and James Cunningham (Arizona State University, USA)

DSAT: Data Sciences, Analytics & Technologies

NKMH: A Neural Efficient Recommendation Based on Neighborhood Key Information Aggregation of Modified Hawkes 195
Xin Xu (Heilongjiang University Key Laboratory of Database and Parallel Computing of Heilongjiang Province Harbin, China), Nan Wang (Postdoctoral Program of Heilongjiang Hengxun Technology Co., Ltd; Heilongjiang University Harbin, China), Hu Jin (Heilongjiang University Key Laboratory of Database and Parallel Computing of Heilongjiang Province Harbin, China), Yong Liu (Heilongjiang University Key Laboratory of Database and Parallel Computing of Heilongjiang Province Harbin, China), and Kun Li (Heilongjiang University Key Laboratory of Database and Parallel Computing of Heilongjiang Province Harbin, China)

BitBooster: Effective Approximation of Distance Metrics via Binary Operations 201
Yorick Spenrath (Eindhoven University of Technology, The Netherlands), Marwan Hassani (Eindhoven University of Technology, The Netherlands), and Boudewijn Frans van Dongen (Eindhoven University of Technology, The Netherlands)

GPU-Accelerated Faster Mean Shift with Euclidean Distance Metrics 211
Le You (Tufts University, USA), Han Jiang (Tufts University), C.Hwa Chang (Tufts University, USA), Lingxi Chen (Middlebury College, USA), Xintong Cui (Hosei University, Japan), and Mengyang Zhao (Dartmouth College, USA)

Evaluation and Visualization of Trustworthiness in Social Media – EUNOMIA's Approach 217
Panagiotis Monachelis (University of West Attica, Greece), Panagiotis Kasnesis (University of West Attica, Greece), Lazaros Toumanidis (University of West Attica, Greece), Charalampos Patrikakis (University of West Attica, Greece), and Pericles Papadopoulos (University of West Attica, Greece)

Unsupervised Markdown Feature-Aware Keywords Extraction Towards Technology Blogs 223
Yangyang Wang (East China Normal University, China), Liping Hua (East China Normal University, China), Hui Zhao (East China Normal University, China), and Lingfeng Yang (East China Normal University, China)

TBPM-DDIE: Transformer Based Pretrained Method for Predicting Drug-Drug Interactions Events 229
Zhenjie Shao (East China Normal University, China), Ying Qian (East China Normal University, China), and Liang Dou (East China Normal University, China)

Canadian Jobs amid a Pandemic: Examining the Relationship Between Professional Industry and Salary to Regional Key Performance Indicators 235
Rahul Anilkumar (Carleton University), Benjamin Melone (Carleton University), Michael Patsula (Carleton University), Christophe Tran (Carleton University), Christopher Wang (Carleton University), Kevin Dick (Carleton University), Hoda Khalil (Carleton University), and Gabriel Wainer (Carleton University)

Elucidation of the Relationship Between a Song's Spotify Descriptive Metrics and Its Popularity on Various Platforms 241
Laura Colley (Carleton University, Ontario), Andrew Dybka (Carleton University, Ontario), Adam Gauthier (Carleton University, Ontario), Jacob Laboissonniere (Carleton University, Ontario), Alexandre Mougeot (Carleton University, Ontario), Nayeeb Mowla (Carleton University, Ontario), Kevin Dick (Carleton University, Ontario), Hoda Khalil (Carleton University, Ontario), and Gabriel Wainer (Carleton University, Ontario)

Long Term Interval Forecasts of Demand using Data-Driven Dynamic Regression Models 250
You Liang (Toronto Metropolitan University, Canada) and Aerambamoorthy Thavaneswaran (University of Manitoba, Canada)

Graph Embedding Based on Feature Propagation for Community Detection 260
Dong Li (South China University of Technology, China), Yingying Xiao (South China University of Technology, China), Zhuanming Gao (South China University of Technology, China), and Ningsi Li (Taiyuan Institute of Technology, China)

A Deep Learning-Based Model for Automated Quality Control in the Pharmaceutical Industry 266
Dominik Raab (Aalen University, Germany), Eric Fezer (Aalen University, Germany), Johannes Breitenbach (University of Bayreuth, Germany), Hermann Baumgartl (Aalen University, Germany), Daniel Sauter (Aalen University, Germany), and Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany)

TI-Prompt: Towards a Prompt Tuning Method for Few-Shot Threat Intelligence Twitter Classification 272
Yizhe You (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Zhengwei Jiang (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Kai Zhang (Institute of Information Engineering, Chinese Academy of Sciences, China), Jun Jiang (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xuren Wang (Capital Normal University, China), Zheyu Zhang (China Industrial Control Systems Cyber Emergency Response Team, China), Shirui Wang (China Industrial Control Systems Cyber Emergency Response Team, China), and Huamin Feng (Beijing Electronic Science and Technology Institute, China)

Using Domain Knowledge to Assist Process Scenario Discoveries 280
Zhenyu Zhang (San Diego State University, USA; University of California, USA), Junjie Zhu (Princeton University, USA), Ryan Hildebrant (San Diego State University, USA), Nalini Venkatasubramanian (University of California, USA), and Shangping Ren (San Diego State University, USA)

A Longitudinal Study of Customer Electricity Load Profiles 289
Etienne Gael Tajeuna (University of Sherbrooke, Canada), Mohamed Bouguessa (University of Quebec at Montreal, Canada), and Shengrui Wang (University of Sherbrooke, Canada)

Dynamic Cross-Sectional Regime Identification for Financial Market Prediction 295
Rongbo Chen (University of Sherbrooke, Canada), Kunpeng Xu (University of Sherbrooke, Canada), Jean-Marc Patenaude (Laplace Insights, Canada), and Shengrui Wang (University of Sherbrooke, Canada)

A Mobility Forecasting Framework with Vertical Federated Learning 301
Fatima Zahra Errounda (Concordia university, Canada) and Yan Liu (Concordia unversity, Canada)

Adaptive Noisy Data Augmentation for Regularized Estimation and Inference of Generalized Linear Models 311
Yinan Li (University of Notre Dame, USA) and Fang Liu (University of Notre Dame, USA)

Related Questions Retrieval Model in Stack Overflow Based on Semantic Matching 321
Zishan Qin (South China University of Technology, China), Yimin Wu (South China University of Technology, China; Guangdong Ocean University at Yangjiang, China), Jiayan Pei (South China University of Technology, China), Jinwei Lu (South China University of Technology, China), Shizhao Huang (South China University of Technology, China), and Liqun Liu (Guangdong Ocean University at Yangjiang, China)

An Autonomous Data Collection Pipeline for Online Time-Sync Comments 327
Jiachen Ma (Marquette University, USA), Lin He (Marquette University, USA), Sheikh Iqbal Ahamed (Marquette University, USA), and Piyush Saxena (Direct Supply, Inc, USA)

A Clustering-Aided Approach for Diagnosis Prediction: A Case Study of Elderly Fall 337
Ling Tong (University of Wisconsin Milwaukee, USA), Jake Luo (University of Wisconsin Milwaukee, USA), Jazzmyne Adams (Medical College of Wisconsin, USA), Kristen Osinski (Medical College of Wisconsin, USA), Xiaoyu Liu (University of Wisconsin Milwaukee, USA), and David Friedland (Medical College of Wisconsin, USA)

A Baseline for Early Classification of Time Series in an Open World 343
Junwei Lv (Hefei University of Technology, China) and Xuegang Hu (Hefei University of Technology, China)

EATA: Emerging Advances in Technology & Applications

Apple-YOLO: A Novel Mobile Terminal Detector Based on YOLOv5 for Early Apple Leaf Diseases..... 352
Jinjiang Li (Northwest A&F University, China), Xianyu Zhu (Northwest A&F University, China), Runchang Jia (Northwest A&F University, China), Bin Liu (Northwest A&F University, China), and Cong Yu (Northwest A&F University, China)

A Dynamic Load Balancing Scheme Based on Network Sharding in Private Ethereum Blockchain . 362
Zicheng Wang (Inner Mongolia University, China), Bo Cui (Inner Mongolia University, China), and Wenhan Hou (Inner Mongolia University, China)

External Service Sensing in an Uncertain World 368
Mingyi Liu (Harbin Institute of Technology, China), Zhongjie Wang (Harbin Institute of Technology, China), Tianyu Jiang (Harbin Institute of Technology, China), Xiaofei Xu (Harbin Institute of Technology, China), Quan Z. Sheng (Mcquaire University, Australia), and Stephan Reiff-Marganiec (University of Derby, UK)

Multi-weighted Graphs Learning for Passenger Count Prediction on Railway Network 374
Hangli Ge (Interfaculty Initiative in Information Studies), Lifeng Lin (Interfaculty Initiative in Information Studies), Renhe Jiang (The University of Tokyo), Takashi Michikata (Interfaculty Initiative in Information Studies), and Noboru Koshizuka (Interfaculty Initiative in Information Studies)

A Fourier Descriptor for Bone Point Segmentation using Inner Distance in Remote Sensing Images 383
Zekun Li (Xidian University, China), Baolong Guo (Xidian University, China), Chao Wang (Xidian University, China), and Mengyan Guo (Xidian University, China)

A Scalable Approach to Detect Contrasting Consecutive Patterns in Time Series Data 388
Stefano Tata (Politecnico di Torino, Italy) and Luca Cagliero (Politecnico di Torino, Italy)

A Freely Available System for Human Activity Recognition Based on a Low-Cost Body Area Network 395
Cristian Turetta (University of Verona, Italy), Florenc Demrozi (University of Verona, Italy), and Graziano Pravadelli (University of Verona, Italy)

Connecting Everyday Objects with the Metaverse: A Unified Recognition Framework 401
Liming Xu (University of Cambridge, United Kingdom), Dave Towey (University of Nottingham Ningbo China, China), Andrew P. French (University of Nottingham, United Kingdom), and Steve Benford (University of Nottingham, United Kingdom)

Fast Abstracts

Online Identity Theft Index Scorer and Recommendation Service 407
Nivedha Rajaram (n/a)

Network Traffic Prediction Based on Double- Synchronized Periodic LSTM 409
Liang Ye (Shanghai University, China), Shun Ding (Shanghai University, China), Chenyun Liu (Shanghai Municipal Big Data Center, China), and Wenhao Zhu (Shanghai University, China)

Computer Education of the Primary Years Programme Exhibition at International Baccalaureate Schools During the COVID-19 Pandemic 411
Allison Hsu (Osaka YMCA International School, Japan) and Ying-Feng Hsu (Cybermedia Center, Osaka University, Japan)

UML Statechart Anti-Patterns 413
Mehmet Aktaş (ASELSA A.S., Turkey) and Tolga Ovatman (Istanbul Technical University, Turkey)

Leveraging Summarization Techniques in Educational Technology Systems 415
Irene Benedetto (Politecnico di Torino), Lorenzo Canale (Politecnico di Torino), Laura Farinetti (Politecnico di Torino), Luca Cagliero (Politecnico di Torino), and Moreno La Quatra (Politecnico di Torino)

CacheQueue: Efficient Cache Queue Usage in a NDN 417
Dipannoy Das Gupta (Bangladesh University of Engineering and Technology, Bangladesh), Pranta Biswas (Bangladesh University of Engineering and Technology, Bangladesh), and Mahmuda Naznin (Bangladesh University of Engineering and Technology, Bangladesh)

Collaborative Research on Rapid Periodontitis Test 419
Wook-Sung Yoo (Marshall University, United States), Hwapyeong Song (Marshall University, United States), and Hyun-Duck Kim (Seoul National University, South Korea)

Technology as a Distracter for Providing Humanistic Care in Technology Dependent Care Units 421
Ahmad Saifan (Applied Sciences Private University, Jordan), Nabeel Al-Yateem (University of Sharjah, UAE), Jacqueline Maria Dias (University of Sharjah, UAE), Fatma Refaat Ahmed (University of Sharjah, UAE), Muhammad Arsyad Subu (University of Sharjah, UAE), Syed Azizur Rahman (University of Sharjah, UAE), Amina Al Marzooqi (University of Sharjah, UAE), and Sheikh Iqbal Ahamed (Marquette University, USA)

Improving the Prediction Accuracy with Feature Selection for Ransomware Detection 424
Chulan Gao (Georgia State University, USA), Hossain Shahriar (Kennesaw State University, USA), Dan Lo (Kennesaw State University, USA), Yong Shi (Kennesaw State University, USA), and Kai Qian (Kennesaw State University, USA)

Preliminary Study for the Impact of Small Eigenvalues on Laplacian Anomaly Detection of Dynamic Networks 426
Eriko Segawa (Kwansei Gakuin University, Japan) and Yusuke Sakumoto (Kwansei Gakuin University, Japan)

Broaden Multidisciplinary Data Science Research by an Innovative Cyberinfrastructure Platform 428
Dan Chia-Tien Lo (Kennesaw State University, Usa), Kai Qian (Kennesaw State University, USA), Yong Shi (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), and Chung Ng (Morehouse College, USA)

Spectral Formula for the Expected First Meeting Time of Diverse Random Walks on a Graph 430
Nanami Tsuji (Kwansei Gakuin University, Japan), Fumiya Toyoda (Kwansei Gakuin University, Japan), Yusuke Sakumoto (Kwansei Gakuin University, Japan), and Hiroyuki Ohsaki (Kwansei Gakuin University, Japan)

An Agile Framework for Security Requirements: A Preliminary Investigation 432
Sandeep Reddivari (University of North Florida)

Efficient Parallel Wikipedia Internal Link Extraction for NLP-Assisted Requirements Understanding 434
Joseph Allen (University of North Florida, USA) and Sandeep Reddivari (University of North Florida, USA)

ReNego: A Requirements Negotiation Tool Based on Voting of Social Choice Theory 436
Sandeep Reddivari (University of North Florida, USA) and Ahmed Moussa (University of North Florida, USA)

Calculating Requirements Similarity using Word Embeddings 438
Sandeep Reddivari (University of North Florida, USA) and Jeffery Wolbert (University of North Florida, USA)

Finding Your Feet In Cybersecurity: A Reddit Text Mining Approach 440
Prerit Datta (Coastal Carolina University) and Moitrayee Chatterjee (New Jersey City University)

Authentic Learning of Machine Learning to Ransomware Detection and Prevention 442
Md Jobair Hossain Faruk (Kennesaw State University, USA), Mohammad Masum (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Kai Qian (Kennesaw State University, USA), and Dan Lo (Kennesaw State University, USA)

Leveraging Healthcare API to Transform Interoperability: API Security and Privacy 444
Md Jobair Hossain Faruk (Kennesaw State University, USA), Arleen Joy Patinga (Kennesaw State University, USA), Lornna Migiro (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), and Sweta Sneha (Kennesaw State University, USA)

Software Engineering in Digital Transformation and Diversity: Preliminary Literature Review 446
Hironori Washizaki (Waseda University / National Institute of Informatics / SYSTEM INFORMATION / eXmotion, Japan)

EHDNet: Enhanced Human Detection Network for Search and Rescue 448

Comprehensive Feature Extraction for Cross-Project Software Defect Prediction 450
Jagan Mohan Reddy (University at Buffalo, USA), Muthukumaran K (Vellore Institute of Technology, India), Hossain Shahriar (Kennesaw State University, United States), Victor Clincy (Kennesaw State University, United States), and Nazmus Sakib (Kennesaw State University, United States)

MRehab: Mutlimodal Data Acquisition and Modeling Framework for Assessing Stroke and Cardiac Rehabilitation Exercises 452
Md Abdullah Al Hafiz Khan (Kennesaw State University, USA) and Hossain Shahriar (Kennesaw State University, USA)

Scalable Machine Learning Labware using PySpark 454
Mohammad Masum (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Nazmus Sakib (SUNY Buffalo), Maria Valero (Kennesaw State University, USA), Kai Qian (Kennesaw State University, USA), Dan Lo (Kennesaw State University, USA), Fan Wu (Tuskegee University), Mohammed Karim (Kennesaw State University, USA), Parth Bhavsar (Kennesaw State University, USA), and Jidong Yang (University of Georgia)

HCSC: Human Computing & Social Computing

Breaking the Barrier with a Multi-domain SER 456
Jamalia Sultana (Bangladesh University of Engineering and Technology, Bangladesh) and Mahmuda Naznin (Bangladesh University of Engineering and Technology, Bangladesh)

An Analysis of the Early Dialogue on Vaccine Passports on Twitter 462
Blake Gaines (University of Connecticut, USA), Ethan Mann (University of Connecticut, USA), and Swapna Gokhale (University of Connecticut, USA)

Emotion Detection in Law Enforcement Interviews 468
Jean Marie Tshimula (Université de Sherbrooke, Canada), Sharmistha Gray (Nuance Communications, United States), Belkacem Chikhaoui (Université TELUQ, Canada; Université de Sherbrooke, Canada), and Shengrui Wang (Université de Sherbrooke, Canada)

Towards Emotion-Awareness in Programming Education with Behavior-Based Emotion Estimation ... 476
Yuqian Zhuang (Nanjing University, China), Liang Wang (Nanjing University, China), Zhiwen Zheng (Nanjing University, China), Hao Hu (Nanjing University, China), Haijun Wu (Nanjing University, China; National Experimental Teaching Demonstration Center of Computer Science Technology and Software Engineering, China), and Xianping Tao (Nanjing University, China)

Talk to Your Data: A Chatbot System for Multidimensional Datasets 486
Maria Helena Franciscatto (Federal University of Paraná, Brazil), Marcos Didonet Del Fabro (Federal University of Paraná, Brazil), Celio Trois (Federal University of Santa Maria, Brazil), Luis Carlos Bona (Federal University of Paraná, Brazil), Jordi Cabot (ICREA-UOC, Spain), and Leon Augusto Gonçalves (Federal University of Paraná, Brazil)

Multi-scale Speaker Vectors for Zero-Shot Speech Synthesis 496
Tristin Cory (Missouri State University, USA) and Razib Iqbal (Missouri State University, USA)

Session: Invited Papers

Towards a Survey on Universal Human Vital Signs with Prototype for Detection and Record Electronically Acceptable Medical-Data (dDream) 502
Masud Rabbani (Marquette University, USA), Kazi Shafiul Alam (Marquette University, USA), Lin He (Marquette University, USA), Shiyu Tian (Marquette University, USA), Mohammad Syam (Marquette University, USA), Iysa Iqbal (Marquette University, USA), Anushka Kolli (Marquette University, USA), Hansika Kolli (Marquette University, USA), Syeda Shefa (Marquette University, USA), Bipasha Sobhani (Marquette University, USA), Paramita Basak Upama (Marquette University, USA), and Sheikh Iqbal Ahamed (Marquette University, USA)

Towards Developing a Voice-Activated Self-Monitoring Application (VoiS) for Adults with Diabetes and Hypertension 512
Masud Rabbani (Marquette University, USA), Shiyu Tian (Marquette University, USA), Adib Ahmed Anik (Marquette University, USA), Jake Luo (College of Health Sciences, University of Wisconsin-Milwaukee, USA), Min Sook Park (School of Information Studies, University of Wisconsin-Milwaukee, USA), Jeff Whittle (Medical College of Wisconsin, USA), Sheikh Iqbal Ahamed (Marquette University, USA), and Hyunkyoung Oh (College of Nursing, University of Wisconsin-Milwaukee, USA)

Evolution of Quantum Computing: A Systematic Survey on the Use of Quantum Computing Tools 520
Paramita Basak Upama (Marquette University, USA), Md Jobair Hossain Faruk (Kennesaw State University, USA), Mohammad Nazim (Kennesaw State University, USA), Mohammad Masum (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Gias Uddin (University of Calgary, USA), Shabir Barzanjeh (University of Calgary, USA), Sheikh Iqbal Ahamed (Marquette University, USA), and Akond Rahman (Tennessee Tech university, USA)

Quantum Machine Learning for Software Supply Chain Attacks: How Far Can We Go? 530
Mohammad Masum (Kennesaw State University, USA), Mohammad Nazim (Kennesaw State University, USA), Md Jobair Hossain Faruk (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Maria Valero (Kennesaw State University, USA), Md Abdullah Hafiz Khan (Kennesaw State University, USA), Shabir Barzanjeh (University of Calgary, Canada), Erhan Saglamyurek (University of Calgary, Canada), Akond Rahman (Tennessee Tech university, USA), and Sheikh Iqbal Ahamed (Marquette University, USA)

ITiP: IT in Practice

Towards a Commercial Pipeline for Field Crop Identification 539
Dafina Jeaca (SC Ogor Lab SRL, Bucuresti, Romania), Nicu Cosmin Ursache (Alexandru Ioan Cuza University of Iasi, Romania), and Andrei Panu (Alexandru Ioan Cuza University of Iasi, Romania)

A Systematic Literature Review of Virtual and Augmented Reality Applications for Maintenance in Manufacturing 545
Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany), Johannes Breitenbach (University of Bayreuth, Germany), Kai Wannenwetsch (Aalen University, Germany), Isabel Ostermann (Aalen University, Germany), and Rene Priel (Aalen University, Germany)

Towards a Multi-tenant Microservice Architecture: An Industrial Experience 553
Cesar Batista (Synchro Information Systems, João Pessoa, Brazil), Bruno Proença (Synchro Information Systems, João Pessoa, Brazil), Everton Cavalcante (Federal University of Rio Grande do Norte, Natal, Brazil), Thais Batista (Federal University of Rio Grande do Norte, Natal, Brazil), Felipe Morais (Federal University of Rio Grande do Norte, Natal, Brazil), and Henrique Medeiros (Federal University of Rio Grande do Norte, Natal, Brazil)

Hey APR! Integrate Our Fault Localization Skill: Toward Better Automated Program Repair 563
Kyosuke Yamate (Kyushu University, Japan), Masanari Kondo (Kyushu University, Japan), Yutaro Kashiwa (Kyushu University, Japan), Yasutaka Kamei (Kyushu University, Japan), and Naoyasu Ubayashi (Kyushu University, Japan)

Evaluating Automated Program Repair Techniques using Introductory Programming Course Datasets 569
Tsukasa Nakamura (Kyushu University, Japan), Masanari Kondo (Kyushu University, Japan), Yasutaka Kamei (Kyushu University, Japan), and Naoyasu Ubayashi (Kyushu University, Japan)

Exploiting Syntactic Information to Boost the Fine-Tuning of Pre-Trained Models 575
Chaoming Liu (Shanghai University, China), Wenhao Zhu (Shanghai University, China), Xiaoyu Zhang (Shanghai University, China), and Qiuhong Zhai (Shanghai University, China)

Identification of an IoT Device Model in the Home Domain using IPFIX Records 583
Norihiro Okui (KDDI Research, Inc., Japan), Masataka Nakahara (KDDI Research, Inc., Japan), Yutaka Miyake (KDDI Research, Inc., Japan), and Ayumu Kubota (KDDI Research, Inc., Japan)

A Structure-Focused Deep Learning Approach for Table Recognition from Document Images 593
Mengxi Zhou (The Ohio State University, USA) and Rajiv Ramnath (The Ohio State University, USA)

Web Table Data Integration Based on Smart Campus Scenarios to Resolve Name Disambiguation of Scientific Research Personnel 602
Junfan Jin (Hangzhou Dianzi University, China), Junxiang Chen (Hangzhou Dianzi University, China), Jilin Zhang (Hangzhou Dianzi University, China), Renjie Zhou (Hangzhou Dianzi University, China), Tao Liu (Hangzhou Dianzi University, China), Ruixiang Qian (Hangzhou Dianzi University, China), Feng Liu (Hangzhou Dianzi University, China), Li Zhou (Hangzhou Dianzi University, China), and Yongjian Ren (Hangzhou Dianzi University, China)

MOWU: Mobile, Wearable & Ubiquitous Computing

Color-Path: Hair Arrangement Reproduction Support System by Displaying Target Motion in AR. 608
Natsumi Matsui (Kobe University, Japan), Ayumi Ohnishi (Kobe University, Japan), Tsutomu Terada (Kobe University, Japan), and Masahiko Tsukamoto (Kobe University, Japan)

DSPBooster: Offloading Unmodified Mobile Applications to DSPs for Power-Performance Optimal Execution 614
Elliott Wen (The University of Auckland) and Jiaxing Shen (The Hong Kong Polytechnic University)

NCIW: Networks, Communications, Internet & Web Technologies

Madelyn: Multi-domain Multi-agent Reinforcement Learning for Data-Center Networks 624
Ajay Kattepur (Ericsson Research Artificial Intelligence, India) and Sushanth David (Ericsson BA Managed Services, USA)

Efficient Dual Batch Size Deep Learning for Distributed Parameter Server Systems 630
Kuan-Wei Lu (National Taiwan University, Taiwan), Pangfeng Liu (National Taiwan University, Taiwan), Ding-Yong Hong (Academia Sinica, Taiwan), and Jan-Jan Wu (Academia Sinica, Taiwan)

A Routing Algorithm Based on Social Closeness and Spatio-Temporal Interaction Degree 640
Zhanguo Liu (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China), Gang Xu (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China), Ruijie Hang (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China), Yuan Cheng (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China), Baoqi Huang (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China), and Xiangyu Bai (Inner Mongolia University, China; Inner Mongolia A.R. Key Laboratory of Wireless Networking and Mobile Computing, China)

A Tree Construction Method for Distributed Video Collection and Composition on the Same World Broadcasting System 648
Koki Makida (University of Fukui, Japan), Tomoya Kawakami (University of Fukui, Japan), Satoru Matsumoto (Osaka University, Japan), Tomoki Yoshihisa (Osaka University, Japan), Yuuichi Teranishi (National Institute of Information and Communications Technology, Japan; Osaka University, Japan), and Shinji Shimojo (Osaka University, Japan)

Implementation and Evaluation of Flow-Level Network Simulator for Large-Scale ICN Networks.. 658
Soma Yamamoto (Kwansei Gakuin University, Japan), Ryo Nakamura (Fukuoka University, Japan), and Hiroyuki Ohsaki (Kwansei Gakuin University, Japan)

SCH: Smart & Connected Health

GSDNet: An Anti-Interference Cochlea Segmentation Model Based on GAN 664
Zhengxin Li (Nankai University, China), Sikai Tao (Nankai University, China), Ruixun Zhang (Peking University, China), and Hongpeng Wang (College of Artificial Intelligence, China)

QSAR for Anti-ERα Compounds using Sparrow Search Algorithm Optimized BP Neural Network 670
Xiali Li (Minzu University of China, China), Yandong Chen (Minzu University of China, China), and Licheng Wu (Minzu University of China, China)

Automatic Accuracy Versus Complexity Characterization for Embedded Emotion-Sensing Platforms in Healthcare Applications 676
Giovanni Mezzina (Dept. of Electrical and Information Engineering, Politecnico di Bari, Italy) and Daniela De Venuto (Dept. of Electrical and Information Engineering, Politecnico di Bari, Italy)

Cross-Domain Unseen Activity Recognition using Transfer Learning 684
Md Abdullah Al Hafiz Khan (Kennesaw State University, USA) and Nirmalya Roy (University of Maryland, Baltimore County, USA)

A Virtual Coaching Platform to Support Therapy Compliance in Obesity 694
Luisa Bissoli (Division of Geriatrics and Clinical Nutrition AOUI, Integrated University Hospital Verona, Italy), Davide Bonacina (Division of Geriatrics and Clinical Nutrition AOUI, Integrated University Hospital Verona, Italy), Nicolò Dalla Riva (EDALAB srl), Florenc Demrozi (Department of Computer Science, University of Verona, Italy), Marin Jereghi (Department of Computer Science, University of Verona, Italy), Nicola Marchiotto (EDALAB srl), Giovanni Perbellini (EDALAB srl), Bruno Pernice (Department of Medicine, University of Verona, Verona, Italy), Erica Pizzocaro (Department of Surgery, Dentristry, paediatrics and gynaecology, University of Verona, Verona, Italy), Graziano Pravadelli (Department of Computer Science, University of Verona, Italy), Giuseppe Recchia (daVinci Digital Therapeutics srl, Verona, Italy), Anna Lia Sacerdoti (Department of Medicine, University of Verona, Verona, Italy), Cristian Turetta (Department of Computer Science, University of Verona, Italy), and Mauro Zamboni (Department of Surgery, Dentristry, paediatrics and gynaecology, University of Verona, Verona, Italy)

mTOCS: Mobile Teleophthalmology in Community Settings to Improve Eye-Health in Diabetic Population 700
Jannatul Ferdause Tumpa (Marquette University, USA), Riddhiman Adib (Marquette University, USA), Dipranjan Das (Marquette University, USA), Nathalie Abenoza (Medical College of Wisconsin, USA), Andrew Zolot (Medical College of Wisconsin, USA), Velinka Medic (Medical College of Wisconsin, USA), Judy Kim (Medical College of Wisconsin, USA), Jay Romant (City of Milwaukee Health Department, USA), and Sheikh Iqbal Ahamed (Marquette university, USA)

Quantitative Multidimensional Stress Assessment from Facial Videos using Deep Learning 710
Lin He (Marquette University, USA), Jiachen Ma (Marquette University, USA), Sheikh Iqbal Ahamed (Marquette University, USA), and Piyush Saxena (Direct Supply, Inc., USA)

SEPT: Security, Privacy & Trust in Computing

ValidatorRep: Blockchain-Based Trust Management for Ensuring Accountability in Crowdsourcing 716
Ruilin Lai (South China Normal University, China) and Gansen Zhao (South China Normal University, China)

A Multi-objective Approach for Security Hardening and Probabilistic Vulnerability Assessment on Attack Graphs 726
Shuvo Bardhan (Georgetown University, USA)

Synthesis of Java Deserialisation Filters from Examples 736
Kostyantyn Vorobyov (Oracle Labs, Australia), François Gauthier (Oracle Labs, Australia), Sora Bae (Oracle Labs, Australia), Padmanabhan Krishnan (Oracle Labs, Australia), and Rebecca O'Donoghue (Oracle Labs, Australia)

EOSIOAnalyzer: An Effective Static Analysis Vulnerability Detection Framework for EOSIO Smart Contracts 746
Wenyuan Li (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Jiahao He (WeBank Co., Ltd, China), Gansen Zhao (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Jinji Yang (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Shuangyin Li (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Ruilin Lai (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Ping Li (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Hua Tang (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), Haoyu Luo (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou), and Ziheng Zhou (VeChain Foundation, China)

KOP-Fuzzer: A Key-Operation-Based Fuzzer for Type Confusion Bugs in JavaScript Engines 757
Lili Sun (Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Chenggang Wu (Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Zhe Wang (Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Yan Kang (Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and Bowen Tang (Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Introduction of a new Method for Preventing Recipient Unapproved Transactions to Bitcoin Wallet 767
Chuki Hayama (Hiroshima City University, Japan), Yoko Kamidoi (Hiroshima City University, Japan), and Shin'ichi Wakabayashi (Hiroshima City University, Japan)

A Node-Labeling-Based Method for Evaluating the Anonymity of Tor Network 773
Feng Jiang (Beijing University of Posts and Telecommunications, China), Yamei Xia (Beijing University of Posts and Telecommunications, China), Wenbin Yao (Beijing University of Posts and Telecommunications, China), Tianbo Lu (Beijing University of Posts and Telecommunications, China), and Xiaoyan Zhang (Beijing University of Posts and Telecommunications, China)

Exploring Optimal Deep Learning Models for Image-Based Malware Variant Classification 779
Rikima Mitsuhashi (The University of Tokyo, Japan) and Takahiro Shinagawa (The University of Tokyo, Japan)

Harnessing Digital Twin Security Simulations for Systematic Cyber Threat Intelligence 789
Marietheres Dietz (University of Regensburg, Germany), Daniel Schlette (University of Regensburg, Germany), and Günther Pernul (University of Regensburg, Germany)

Shifting Left for Machine Learning: An Empirical Study of Security Weaknesses in Supervised Learning-Based Projects 798
Farzana Ahamed Bhuiyan (Tennessee Tech University, USA), Stacy Prowell (Oak Ridge National Laboratory, USA), Hossain Shahriar (Kennesaw State University, USA), Fan Wu (Tuskegee University, USA), and Akond Rahman (Tennessee Tech University, USA)

What is a (Digital) Identity Wallet? A Systematic Literature Review 809
Blaž Podgorelec (Graz University of Technology, Austria), Lukas Alber (Graz University of Technology, Austria), and Thomas Zefferer (A-SIT Plus GmbH, Austria)

SETA: Software Engineering Technologies & Applications

Two-Stage Cost-Sensitive Local Models for Heterogeneous Cross-Project Defect Prediction 819
Yan Huang (East China University of Science and Technology, China) and Xian Xu (East China University of Science and Technology, China)

Category-Aware App Permission Recommendation Based on Sparse Linear Model 829

Tuanjie Shao (Sungkyunkwan University, Korea) and Dongkun Shin (Sungkyunkwan University, Korea)

MPO: MQTT-Based Privacy Orchestrator for Smart Home Users 988
Ahmed Alhazmi (Florida Institute of Technology, USA), Khulud Alawaji (Florida Institute of Technology, USA), and TJ OConnor (Florida Institute of Technology, USA)

Students Research Symposium

Assessing Deep Learning Approaches in Detecting Masked Facial Expressions 994
Yepu Wang (Fordham University, USA), Yiting Wang (Fordham University, USA), Chuyue Zhong (Fordham University, USA), and Yijun Zhao (Fordham University, USA)

A Comparison of Deep Learning and Traditional Machine Learning Approaches in Detecting Cognitive Impairment using MRI Scans 998
Wei Liu (Fordham University, USA), Jiarui Zhang (Fordham University, USA), and Yijun Zhao (Fordham University, USA)

Interactive Bridge Inspection Research using Drone 1002
Hwapyeong Song (Marshall University, USA), Wook-Sung Yoo (Marshall University, USA), and Wael Zatar (Marshall University, USA)

Study of Facial Generation Methods After Orthodontic Treatment 1006
Jia-Liang Tian (College of artificial intelligence Beijing University of Posts and Telecommunications, China), Qin-Yan Zhang (College of artificial intelligence Beijing University of Posts and Telecommunications, China), Hai-Zhen Li (Peking University School and Hospital of Stomatology, China), Qing Wang (Tsinghua University, China), Yi Lei (Beijing University of Technology, China), Lin Zang (Pharmacovigilance Research Center for information technology and Data Science, China), Xue-Mei Gao (Peking University School and Hospital of Stomatology, China), and Ji-Jiang Yang (Tsinghua University, China)

Radiation Mapping using a Double Exponential Attenuation Model for UAV Sensing in Forest Area 1012
Ryo Kikawa (Nihon University, Japan), Katsunori Oyama (Nihon University, Japan), and Kouichi Genda (Nihon University, Japan)

Reinforcement Learning Agent for Path Planning with Expert Demonstration 1016
Alan Norkham (Kennesaw State University, USA), Mikalus Chalupa (Kennesaw State University, USA), Noah Gardner (Kennesaw State University, USA), Md Abdullah Al Hafiz Khan (Kennesaw State University, USA), Xinyue Zhang (Kennesaw State University, USA), and Chih-Cheng Hung (Kennesaw State University, USA)

COMPSAC 2022 Workshops

ADMNET 2022

Off-the-Shelf LoRaWAN: Experimenting on the Prospect of a Low-Cost Rapid Prototyping Solution 1020
Florian Hofer (Free University of Bolzano, Italy) and Clemens Kuen (systems s.r.l., Italy)

A Novel Passive L1/L2 Edge Loop Detection Observing MAC Addresses of L3 Core Switches 1026
Motoyuki Ohmori (Tottori University, Japan)

Benefit of Third-Party Name Server Operations in DNS Configuration 1032
Akira Sato (University of Tsukuba, Japan), Kazunori Fujiwara (Japan Registry Services Co., Ltd, Japan), Kenichi Yoshida (University of Tsukuba, Japan), and Shuji Sannomiya (University of Tsukuba, Japan)

Design and Evaluation of a Dedicated Information Environment with Both Portability and Confidentiality 1038
Norimasa Takana (University of Tsukuba, Japan) and Hiroki Kashiwazaki (Kindai University, Japan)

On the Effect of Communication Link Heterogeneity on Content Delivery Delay in Information-Centric Delay Tolerant Networks 1044
Hisashi Sagayama (Kwansei Gakuin University, Japan), Ryotaro Matsuo (Kwansei Gakuin University, Japan), and Hiroyuki Ohsaki (Kwansei Gakuin University, Japan)

IPSG: Invariant Proof Score Generator 1050
Duong Dinh Tran (Japan Advanced Institute of Science and Technology, Japan) and Kazuhiro Ogata (Japan Advanced Institute of Science and Technology, Japan)

AIML 2022

Mask and Respirator Detection: Analysis and Potential Solutions for a Frequently ill-Conditioned Problem 1056
Antonio Costantino Marceddu (Politecnico di Torino, Italy), Renato Ferrero (Politecnico di Torino, Italy), and Bartolomeo Montrucchio (Politecnico di Torino, Italy)

Debugging Support for Machine Learning Applications in Bioengineering Text Corpora 1062
Kwok Sun Cheng (University of Nebraska at Omaha), Tae-Hyuk Ahn (Saint Louis University), and Myoungkyu Song (University of Nebraska at Omaha)

Challenges in Developing and Deploying AI in the Engineering, Procurement and Construction Industry 1070
Rimma Dzhusupova (McDermott, The Netherlands), Jan Bosch (Chalmers University of Technology, Sweden), and Helena Holmström Olsson (Malmö University, Sweden)

Concept Drift Detection for Distributed Multi-model Machine Learning Systems 1076
Beverly Abadines Quon (University of CA, Irvine, USA) and Jean-Luc Gaudiot (University of CA, Irvine, USA)

A Systematic Literature Review of Machine Learning Applications for Process Monitoring and Control in Semiconductor Manufacturing 1081
Tobias Gentner (Aalen University, Germany), Johannes Breitenbach (University of Bayreuth, Germany), Timon Neitzel (Aalen University, Germany), Jacob Schulze (Aalen University, Germany), and Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany)

Contexts Embedding for Sequential Service Recommendation 1087
Benjamin Amankwata (University of Massachusetts Boston, USA) and Kenneth Fletcher (University of Massachusetts Boston, USA)

Towards Automation for MLOps: An Exploratory Study of Bot Usage in Deep Learning Libraries 1093
Akond Rahman (Tennessee Technological University, USA), Farzana Ahamed Bhuiyan (Meta), Mohammad Mehedi Hassan (Independent University, India), Hossain Shahriar (Kennesaw State University, USA), and Fan Wu (Tuskegee University, USA)

Unreasonable Effectiveness of Last Hidden Layer Activations for Adversarial Robustness 1098
Omer Faruk Tuna (Isik University, Turkey), Ferhat Ozgur Catak (University of Stavanger, Norway), and M. Taner Eskil (Isik University, Turkey)

AINet 2022

Network Intrusion Detection using Stack-Ensemble ANN 1104
Lamia Parven Khan (North South University, India), Tasfia Tahsin Anika (North South University, India), Suraka Iban Hanif (North South University, India), and Rashedur M. Rahman (North South University, India)

Token Based Energy-Efficient Offloading Schemes for IoV Networks 1110
Pranshu Srivastava (Information Systems Birla Institute of Technology & Science Pilani, India), Kaustubh Ijardar (Information Systems Birla Institute of Technology & Science Pilani, India), Anuj Joshi (Information Systems Birla Institute of Technology & Science Pilani, India), Nikumani Choudhury (Information Systems Birla Institute of Technology & Science Pilani, India), and Anakhi Hazarika (Indian Institute of Information Technology, India)

Approximating CNN Computation for Plant Disease Detection 1117
Anakhi Hazarika (Indian Institute of Information Technology Guwahati, India), Pranav Sistla (BITS Pilani Hyderabad Campus, India), Vineet Venkatesh (BITS Pilani Hyderabad Campus, India), and Nikumani Choudhury (BITS Pilani Hyderabad Campus, India)

A Secure and Efficient Fine-Grained Deletion Approach over Encrypted Data 1123
Kushagra Lavania (BITS Pilani Hyderabad Campus, India), Gaurang Gupta (BITS Pilani Hyderabad Campus, India), and D.V.N. Siva Kumar (BITS Pilani Hyderabad Campus, India)

AVKMT 2022

Towards Multi-perspective Consulting in Times of Disruption 1129
Stephen Ryan (University of Limerick and Confirm, Ireland) and Barbara Steffen (University of Dortmund, Germany)

Linking Multi-perspectives to Enable Educated Decision Making in Digital Platform Design 1135
Barbara Steffen (TU Dortmund University, Germany) and Frederik Möller (TU Dortmund University and Fraunhofer ISST, Germany)

BDCAA 2022

Big Data Architectures for Data Lakes: A Systematic Literature Review 1141
Sonam Ramchand Gulwani (Institute of Business Administration (IBA), Karachi Karachi, Pakistan)

A Systematic Literature Review of Machine Learning Approaches for Optimization in Additive Manufacturing 1147
Johannes Breitenbach (University of Bayreuth, Germany), Friedrich Seidenspinner (Aalen University, Germany), Furkan Vural (Aalen University, Germany), Philipp Beisswanger (Aalen University, Germany), and Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany)

BDPROC 2022

Big Data Pipeline Scheduling and Adaptation on the Computing Continuum 1153
Dragi Kimovski (University of Klagenfurt, Austria), Christian Bauer (University of Klagenfurt, Austria), Narges Mehran (University of Klagenfurt, Austria), and Radu Prodan (University of Klagenfurt, Austria)

SIM-PIPE DryRunner: An Approach for Testing Container-Based big Data Pipelines and Generating Simulation Data 1159
Aleena Thomas (SINTEF AS, Norway), Nikolay Nikolov (SINTEF AS, Norway), Antoine Pultier (SINTEF AS, Norway), Dumitru Roman (SINTEF AS, Norway), Brian Elvesæter (SINTEF AS, Norway), and Ahmet Soylu (Oslo Metropolitan University, Norway)

DataCloudDSL: Textual and Visual Presentation of Big Data Pipelines 1165
Shirin Tahmasebi (KTH Royal Institute of Technology, Sweden), Amirhossein Layegh (KTH Royal Institute of Technology, Sweden), Nikolay Nikolov (SINTEF AS, Norway), Amir H. Payberah (KTH Royal Institute of Technology, Sweden), Khoa Dinh (KTH Royal Institute of Technology, Sweden), Vlado Mitrovic (KTH Royal Institute of Technology, Sweden), Dumitru Roman (SINTEF AS, Norway), and Mihhail Matskin (KTH Royal Institute of Technology, Sweden)

An Interactive Approach to Support Event Log Generation for Data Pipeline Discovery 1172
D. Benvenuti (Sapienza University of Rome, Italy), L. Falleroni (Sapienza University of Rome, Italy), A. Marrella (Sapienza University of Rome, Italy), and F. Perales (JOT Internet Media, Spain)

TUFA: A TOSCA Extension for the Specification of Accelerator-Aware Applications in the Cloud Continuum 1178
Adrian Spataru (West University of Timisoara, Romania), Gabriel Iuhasz (West University of Timisoara, Romania), and Silviu Panica (West University of Timisoara, Romania)

CCR 2022

Robotic Grasp Detection for Parallel Grippers: A Review 1184
Zhiyun Yin (Yangzhou University, China), Yujie Li (Yangzhou University, China), Jintong Cai (Yangzhou University, China), and Huimin Lu (Kyushu Institute of Technology, Japan)

Grasp Position Estimation from Depth Image using Stacked Hourglass Network Structure 1188
Keisuke Hamamoto (Kyushu Institute of Technology, Japan), Huimin Lu (Kyushu Institute of Technology, Japan), Yujie Li (Kyushu Institute of Technology, Japan), Tohru Kamiya (Kyushu Institute of Technology, Japan), Yoshihisa Nakatoh (Kyushu Institute of Technology, Japan), and Seiichi Serikawa (Kyushu Institute of Technology, Japan)

CDS 2022

Localization Method for SLAM using an Autonomous Cart as a Guard Robot 1193
Yuya Sawano (Graduate School of kanagawa Institute of technology, Japan), Takuya Watanabe (Graduate School of Kanagawa Institute of Technology, Japan), Yoshiaki Terashima (Soka University, Japan), and Ryozo Kiyohara (Kanagawa Institute of Technology, Japan)

A Safe Route Recommendation Method Based on Driver Characteristics from Telematics Data 1199
Hayato Fukatsu (University of Fukui, Japan) and Tomoya Kawakami (University of Fukui, Japan)

A Real-Time Background Replacement Method Based on Estimated Depth for AR Applications .. 1205
Yoshishiro Tsuboki (University of Fukui, Japan), Tomoya Kawakami (University of Fukui, Japan), Satoru Matsumoto (Osaka University, Japan), Tomoki Yoshihisa (Osaka University, Japan), and Yuuichi Teranishi (National Institute of Information and Communications Technology, Japan)

IoT Platform using Information Flow to Reduce Load on Cloud 1211
Takafumi Sakai (Aichi Institute of Technology, Japan), Kenshin Hata (Aichi Institute of Technology, Japan), Takuya Wada (Aichi Institute of Technology, Japan), and Katsuhiro Naito (Aichi Institute of Technology, Japan)

DADA 2022

CSDLEEG: Identifying Confused Students Based on EEG using Multi-view Deep Learning 1217
Hashim Abu-gellban (Texas Tech University, USA), Yu Zhuang (Texas Tech University, USA), Long Nguyen (Meharry Medical College, USA), Zhenkai Zhang (Clemson University, USA), and Essa Imhmed (New Mexico State University, USA)

Conceptual Mappings of Conventional Software and Machine Learning-Based Applications Development 1223
Shannon Angel (Texas Tech University, USA) and Akbar Siami Namin (Texas Tech University, USA)

Build Connections Between Two Groups of Images using Deep Learning Method 1231
Hongfei Du (The George Washington University, USA), Emre Barut (Amazon, USA), and Juntao Su (The George Washington University, USA)

Temperature Prediction in Microgrids using LSTMs: A Case Study 1237
Ayda Demir (Texas Tech University, USA), Luis Felipe Gutiérrez (Texas Tech University, USA), Stephen Bayne (Texas Tech University, USA), and Argenis Bilbao (Texas Tech University, USA)

A Comparative Study of Pre-Trained Word Embeddings for Arabic Sentiment Analysis 1243
Mohamed Zouidine (Hassan II university of Casablnca, Morocco) and Mohammed Khalil (Hassan II University of Casablanca, Morocco)

Vulnerability Detection in Smart Contracts using Deep Learning 1249
Saroj Gopali (Texas Tech University, USA), Zulfiqar Ali Khan (Texas Tech University, USA), Bipin Chhetri (Texas Tech University, USA), Bimal Karki (Texas Tech University, USA), and Akbar Siami Namin (Texas Tech University, USA)

DBDM 2022

Predictive Analytics for Supporting Environmental Sustainability and Disaster Management 1256
Adam B. Bouttell (University of Manitoba, Canada), Sijin Lee (University of Manitoba, Canada), Carson K. Leung (University of Manitoba, Canada), Martin J. Levesque (University of Manitoba, Canada), Seunggon Son (University of Manitoba, Canada), Weihong Zhang (University of Manitoba, Canada), and Alfredo Cuzzocrea (University of Calabria, Italy)

Mining Popular Topics from the Media 1262
Kyle R. Boch (University of Manitoba, Canada), Freyja C. Kristjanson (University of Manitoba, Canada), Carson K. Leung (University of Manitoba, Canada), Yu Liu (University of Manitoba, Canada), Andrea M. Unrau (University of Manitoba, Canada), Shuai April Zhang (University of Manitoba, Canada), and Alfredo Cuzzocrea (University of Calabria, Italy)

DDS-BDAF 2022

Interpreting Attention of Stock Price Prediction 1268
Kenichi Yoshida (University of Tsukuba, Japan)

A Novel Optimal Profit Resilient Filter Pairs Trading Strategy for Cryptocurrencies 1274
You Liang (Toronto Metropolitan University, Canada), Aerambamoorthy Thavaneswaran (University of Manitoba, Canada), Alex Paseka (University of Manitoba, Canada), Wei Qiao (Toronto Metropolitan University, Canada), Melody Ghahramani (University of Winnipeg, Canada), and Sulalitha Bowala (University of Manitoba, Canada)

Deep Learning Predictions for Cryptocurrencies 1280
Aerambamoorthy Thavaneswaran (University of Manitoba, Canada), You Liang (Toronto Metropolitan University, Canada), Sulalitha Bowala (University of Manitoba, Canada), Alex Paseka (University of Manitoba, Canada), and Melody Ghahramani (University of Winnipeg, Canada)

A New Era of Blockchain-Powered Decentralized Finance (DeFi) - A Review 1286
Saulo Dos Santos (University of Manitoba, Canada), Japjeet Singh (University of Manitoba, Canada), Ruppa K. Thulasiram (University of Manitoba, Canada), Shahin Kamali (University of Manitoba, Canada), Louis Sirico (CTO - Fluidefi, Canada), and Lisa Loud (CEO - Fluidefi, Canada)

DigitALITE 2022

A Cloud-Native Online Judge System 1293
Guan-Chen Pan (National Taiwan University, Taiwan), Pangfeng Liu (National Taiwan University, Taiwan), and Jan-Jan Wu (Academia Sinica, Taiwan)

Assessing Student Participation and Engagement using Discord 1299
Justice Banson (Western Washington University, USA) and Caroline D. Hardin (Western Washington University, USA)

Plug & Play Device for Hybrid Smart Classroom: A Prototype Development 1306
Mohit Krishna Arumalla (BITS Pilani Hyderabad Campus, India), Pranav Sistla (BITS Pilani Hyderabad Campus, India), Nikumani Choudhury (BITS Pilani Hyderabad Campus, India), and Hirak Ranjan Das (Royal Global University, India)

Identifying Key Learning Factors in Service-Leaning Programs using Machine Learning 1312
Kangzhong Wang (The Hong Kong Polytechnic University, China), Eugene Yujun Fu (The Hong Kong Polytechnic University, China), Grace Ngai (The Hong Kong Polytechnic University, China), and Hong Va Leong (The Hong Kong Polytechnic University, China)

ESAS 2022

US County-Level Risk Factors Associated with COVID-19 Exacerbation During the Vaccination Era 1318
Yepu Wang (Fordham University, USA), Yiting Wang (Fordham University, USA), Chuyue Zhong (Fordham University, USA), and Yijun Zhao (Fordham University, USA)

Lessons Learned from the Design and Evaluation of InterViewR: A Mixed-Reality Based Interview Training Simulation Platform for Individuals with Autism 1324
Anais Dawson (Western Washington University), Shameem Ahmed (Western Washington University), Moushumi Sharmin (Western Washington University), and Wesley Deneke (Western Washington University)

A Question-Answering System on COVID-19 Scientific Literature 1331
Shaina Raza (Public Health Ontario, Canada), Brian Schwartz (Public Health Ontario, Canada), and Nancy Ondrusek (Public Health Ontario, Canada)

ICT4SmartGrid 2022

A Systematic Literature Review of Deep Learning Approaches in Smart Meter Data Analytics 1337
Johannes Breitenbach (University of Bayreuth, Germany), Jan Gross (Aalen University, Germany), Manuel Wengert (Aalen University, Germany), James Anurathan (Aalen University, Germany), Rico Bitsch (Aalen University, Germany), Zafer Kosar (Aalen University, Germany), Emre Tuelue (Aalen University, Germany), and Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany)

COMET: Co-simulation of Multi-energy Systems for Energy Transition 1343
Luca Barbierato (Politecnico di Torino, Italy), Daniele Schiera (Politecnico di Torino, Italy), Rossano Scoccia (Politecnico di Milano, Italy), Alessandro Margara (Politecnico di Milano, Italy), Lorenzo Bottaccioli (Politecnico di Torino, Italy), and Edoardo Patti (Politecnico di Torino, Italy)

Modeling of Renewable Energy Communities: the RECoupled Approach 1349
Gianmarco Lorenti (Politecnico di Torino, Italy), Paolo Lazzeroni (Politecnico di Torino, Italy), Francesco Moraglio (Politecnico di Torino, Italy), and Maurizio Repetto (Politecnico di Torino, Italy)

Comparative Analysis of Neural Networks Techniques for Lithium-ion Battery SOH Estimation . 1355
Alessandro Aliberti (Politecnico di Torino, Italy), Filippo Boni (Politecnico di Torino, Italy), Alessandro Perol (Edison), Marco Zampolli (Edison), Rémi Jacques Philibert Jaboeuf (Edison), Paolo Tosco (Edison), Enrico Macii (Politecnico di Torino, Italy), and Edoardo Patti (Politecnico di Torino, Italy)

A Nonlinear Two-Parameter Model for the Spatial Analysis of Solar Irradiation 1362
Alberto Bocca (Politecnico di Torino, Italy), Alberto Macii (Politecnico di Torino, Italy), and Enrico Macii (Politecnico di Torino, Italy)

IEESD 2022

Comparison of Frequency Bands for Wireless Communication in Forests using LoRa Modulation 1368
Christoph Susen (Laboratory for Machine Tools and Production Engineering at RWTH Aachen University, Germany), Philipp Nenninger (Institute for Energy Efficient Mobility at Karlsruhe University of Applied Sciences, Germany), Christian Fimmers (Laboratory for Machine Tools and Production Engineering at RWTH Aachen University, Germany), Simon Storms (Laboratory for Machine Tools and Production Engineering at RWTH Aachen University, Germany), and Werner Herfs (Laboratory for Machine Tools and Production Engineering at RWTH Aachen University, Germany)

A Generic Software Architecture for PoE Power Sourcing Equipment 1375
Andreas Mäkilä (Mälardalen University, Sweden), Anna Friebe (Mälardalen University, Sweden), Tiberiu Seceleanu (Mälardalen University, Sweden), Leif Enblom (Westermo Network Technologies, Sweden), and Per Strandberg (Westermo Network Technologies, Sweden)

MediComp 2022

An Emotion-Fused Medical Knowledge Graph and Its Application in Decision Support 1381
Zhang Liu (Hubei University of Technology, China), Liang Xiao (Hubei University of Technology, China), Jianxia Chen (Hubei University of Technology, China), He Yu (Hubei University of Technology, China), and Yunlong Ye (Hubei University of Technology, China)

Relationship Between Internet Addiction and Stress Levels Among Adolescents in East Jakarta, Jakarta Province, Indonesia 1389
Muhammad Arsyad Subu (University of Sharjah, UAE), Nabeel Al-Yateem (University of Sharjah, UAE), Imam Waluyo (Binawan Institute of Health Sciences, Indonesia), Jacqueline Maria Dias (University of Sharjah, UAE), Syed Azizur Rahman (University of Sharjah, UAE), Fatma Refaat Ahmed (University of Sharjah, UAE), Siti A Murono (AKFIS YAB Yogakarta, Indonesia), Sheikh Iqbal Ahamed (Marquette University, USA), Ahmad Saifan (Applied Science Private University, UAE), Tilawaty Aprina (Pontianak Aisyah Polytechnique, Indonesia), and Amina Al Marzooqi (University of Sharjah, UAE)

Technology Utilization in Health Science Education During Covid-19: Experience from University of Sharjah 1393
Syed Azizur Rahman (University of Sharjah, UAE), Swetha Variyath (University of Sharjah, UAE), Nabeel Al-Yateem (University of Sharjah, UAE), Sheikh Iqbal Ahamed (Marquette University, USA), Amina Al Marzooqi (University of Sharjah, UAE), Muhammad Arsyad Subu (University of Sharjah, UAE), Jacqueline Maria Dias (University of Sharjah, UAE), and Fatma Refaat Ahmed (University of Sharjah, UAE)

Application of Improved Mask R-CNN Algorithm Based on Gastroscopic Image in Detection of Early Gastric Cancer 1396
Zhi-Heng Cui (Beijing University of Posts and Telecommunications, China), Qin-Yan Zhang (Beijing University of Posts and Telecommunications, China), Jing-Wei Zhang (Beijing University of Posts and Telecommunications, China), Xue Sun (VIP Department and Family Medicine Department, Beijing Hospital, China), Qing Wang (Tsinghua University, China), Yi Lei (Faculty of Information Technology, Beijing University of Technology, China), Lin Zang (Pharmacovigilance Research Center for information technology and Data Science, Cross-strait Tsinghua Research Institute, China), Li Zhao (Department of Gastroenterology, Beijing Hospital, China), and Ji-Jiang Yang (Tsinghua University, China)

Predicting Mortality Rate Based on Comprehensive Features of Intensive Care Unit Patients 1402
Jagan Mohan Reddy Danda (University at Buffalo, Buffalo, USA), Kumar Priyansh (University at Buffalo, Buffalo, USA), Hossain Shahriar (Kennesaw State University, USA), Hisham Haddad (Kennesaw State University, USA), Alfredo Cuzzocrea (iDEA Lab, University of Calabria, Italy), and Sakib Nazmus (Kennesaw State University, USA)

Tuberculosis Detection in Chest Radiography: A Combined Approach of Local Binary Pattern Features and Monarch Butterfly Optimization Algorithm 1408
Afonso U. Fonseca (Universidade Federal de Goiás, Brasil), Bruno M. Rocha (Universidade Federal de Jataí, Brasil), Emília A. Nogueira (Universidade Federal de Goiás, Brasil), Gabriel A. Vieira (Instituto Federal Goiano, Brasil), Deborah S. A. Fernandes (Universidade Federal de Goiás, Brasil), Junio C. Lima (Instituto Federal Goiano, Brasil), Julio C. Ferreira (Instituto Federal Goiano, Brasil), and Fabrizzio Soares (Universidade Federal de Goiás, Brasil)

Chinese Medical Named Entity Recognition Based on Multi-word Segmentation and Multi-layer BILSTM 1414
Dawei Li (Beijing University Of Technology, China), Jianqiang Li (Beijing University of Technology, China), Zhichao Zhu (Beijing University of Technology, China), and Tariq Mahmood (Beijing University of Technology, China)

Chinese Medical Event Extraction Based on Hybrid Neural Network 1420
Liyin Yang (Beijing University of Technology, China), Jianqiang Li (Beijing University of Technology, China), Zhichao Zhu (Beijing University of Technology, China), Xiangmin Dong (Beijing University of Technology, China), and Faheem Akhtar (Beijing University of Technology, China)

A Deep Learning Based Method for Microscopic Object Localization and Classification 1426
Boya Li (Beijing University of Technology, China), Jianqiang Li (Beijing University of Technology, China), Zhichao Zhu (Beijing University of Technology, China), Linna Zhao (Beijing University of Technology, China), and Wenxiu Cheng (Beijing University of Technology, China)

High Myopia Detection Method on Fundus Images Based on Curriculum Learning 1432
Huifeng Zhao (Beijing University of Technology, China), Zhilong Ma (Xinjiang University of Finance and Economy, China), Yu Guan (Beijing University of Technology, China), Jianqiang Li (Beijing University of Technology, China), and Yu-Chih Wei (National Taipei University of Technology, China)

A Speech Understanding-Based Method for Recognizing Psychological Medical Speech Feelings . 1438
Shuo Zhang (Beijing University of Technology, China), Jianqiang Li (Beijing University of Technology, China), Muhammad Sufyan (Beijing University of Technology, China), YinLong Xiao (Beijing University of Technology, China), and Xiangmin Dong (Beijing University of Technology, China)

An Ensembled Method For Diabetic Retinopathy Classification using Transfer Learning 1444
Dinesh Attota (Kennesaw State University, USA), Durga Nagarjuna Tadikonda (Kennesaw State University, USA), Shruthi Pethe (Kennesaw State University, USA), and Md Abdullah Al Hafiz Khan (Kennesaw State University, USA)

Mental Workload Classification from non-Invasive fNIRs Signals Through Deep Convolutional Neural Network 1450
Vamsi Krishna Dhulipalla (Kennesaw State University, USA) and Md Abdullah Al Hafiz Khan (Kennesaw State University, USA)

An Efficient Small for Gestational Age Prognosis System using Stacked Generalization Scheme (SGS) 1456
Faheem Akhtar (Beijing University of Technology and Sukkur IBA University, China), Jianqiang Li (Beijing University of Technology, China), Zahid Hussain Khand (Sukkur IBA Univeristy, Pakistan), Yu-Chih Wei (National Taipei University of Technology, Taiwan), Khalid Hussain (Sukkur IBA Univeristy, Pakistan), and Sana Fatima (Sukkur IBA University, Pakistan)

MVDA 2022

IoT for Real-Time Accessibility Ontology Population to Context-Awareness Adapt User Interfaces 1462
Emna Souidi (University of Tunis El Manar, Tunisia), Lamia Zouhaier (University of Tunis El Manar, Tunisia), and Yousra Bendaly Hlaoui (University of Tunis El Manar, Tunisia)

Faultload Time Model of the MQTT Protocol Publish Service 1468
Amina Jandoubi (University of Tunis El Manar, Tunisia), M. Taha Bennani (University of Tunis El Manar, Tunisia), and Abdelaziz El Fazziki (Caddi Ayyad University, Marrakech, Morocco)

NETSAP 2022

Evaluation Framework for Netflow-Based Network Anomaly Detection Systems using Synthetic Malicious Network Traffic 1474
Shuvo Bardhan (Georgetown University, USA) and Mitsuhiro Hatada (Nippon Telegraph and Telecom Communications, Japan)

U-CAN: A Convolutional Neural Network Based Intrusion Detection for Controller Area Networks 1481
Kibrom Desta Araya (Nara Institute of Science and Technology, Japan), Shuji Ohira (Nara Institute of Science and Technology, Japan), Ismail Arai (Information iniTiative Center, Nara Institute of Science and Technology, Japan), and Kazutoshi Fujikawa (Information iniTiative Center, Nara Institute of Science and Technology, Japan)

Real Network DDoS Pattern Analysis and Detection 1489
Ying-Feng Hsu (Cybermedia Center, Osaka University, Japan), Ryusei Araki (Osaka University, Japan), and Morito Matsuoka (Cybermedia Center, Osaka University, Japan)

Malware Detection using Attributed CFG Generated by Pre-Trained Language Model with Graph Isomorphism Network 1495
Yun Gao (Nagoya University, Japan), Hirokazu Hasegawa (National Institute of Informatics, Japan), Yukiko Yamaguchi (Information Technology Center, Nagoya University, Japan), and Hajime Shimada (Information Technology Center, Nagoya University, Japan)

OER 2022

Feasibility Study of using Code Clone Detection for Secure Programming Education 1502
Michael Menard (University of Nebraska at Omaha, USA), Tommy Nelson (University of Nebraska at Omaha, USA), Milan Shahi (University of Nebraska at Omaha, USA), Hugh Morton (University of Nebraska at Omaha, USA), Adam DeTavernier (University of Nebraska at Omaha, USA), Harvey Siy (University of Nebraska at Omaha, USA), Rui Zhao (University of Nebraska at Omaha, USA), and Myoungkyu Song (University of Nebraska at Omaha, USA)

LeG for Enhancing Student Communication and Learning Experience 1508
Henry C. B. Chan (The Hong Kong Polytechnic University)

QUORS 2022

Algebraic Semantics for C++11 Memory Model 1513
Lili Xiao (East China Normal University, China), Huibiao Zhu (East China Normal University, China), Mengda He (Teesside University, United Kingdom), and Shengchao Qin (Teesside University, United Kingdom)

A Framework for Considering Uncertainty in Software Systems 1519
Chawanangwa Lupafya (University of St Andrews, United Kingdom) and Dharini Balasubramaniam (University of St Andrews, United Kingdom)

RepChaBug : Automatically Repairing Incorrect Change Bugs in Software Evolution 1525
Jun Wang (University of Nebraska at Omaha, USA), Samuel Sungmin Cho (Northern Kentucky University, USA), and Myoungkyu Song (University of Nebraska at Omaha, USA)

Colored Petri Net Reusing for Service Function Chaining Validation 1531
Zhenyu Liu (Inner Mongolia University, China), Xuanyu Lou (Inner Mongolia University, China), Yajun Cui (Inner Mongolia University, China; Inner Mongolia Branch of China Telecom, China), Yingdong Zhao (Inner Mongolia University, China), and Hua Li (Inner Mongolia University, China)

SAPSE 2022

Self-Sovereign Identity as a Service: Architecture in Practice 1536
Yepeng Ding (The University of Tokyo, Japan) and Hiroyuki Sato (The University of Tokyo, Japan)

Impacts of Radio Frequency IDentification (RFID) Technology in Business Continuity 1544
Solomon J. Akuma (Concordia University of Edmonton, Canada) and Eslam G. AbdAllah (Concordia University of Edmonton, Canada)

Towards a Distributed Inference Detection System in a Multi-database Context 1550
Sad Rafik (Università degli Studi di Milano, Italy), Paul Lachat (INSA Lyon, France; University of Passau, Germany), Nadia Bennani (INSA Lyon, France), and Veronika Rehn-Sonigo (Université de Bourgogne Franche-Comté, France)

Trade-off Between Privacy, Quality and Risk: Anonymization Strategy Evaluation for Data Warehouses 1555
Sascha Schiegg (University of Passau, Germany) and Armin Gerl (University of Passau, Germany)

SCA 2022

PPDS: Privacy Preserving Data Sharing for AI Applications Based on Smart Contracts 1561
Xuesong Hai (Inner Mongolia University, China) and Jing Liu (Inner Mongolia University, China)

A Self-Adaptive Indicator Selection Approach for Solving Credit Risk Assessment 1567
Yongfeng Gu (Ant Group, China), Yue Ning (Ant Group, China), Hao Ding (Ant Group, China), Kecai Gu (Ant Group, China), Daohong Jian (Ant Group, China), Zhou Xu (Chongqing University, China), Hua Wu (Ant Group, China), and Jun Zhou (Ant Group, China)

An Approach to Real-Time Fall Detection Based on OpenPose and LSTM 1573
Po-Chih Chen (Providence University), Chih-Hung Chang (Providence University), Yu-Wei Chan (Providence University), Yin-Te Tasi (Providence University), and William Cheng-Chung Chu (Tunghai University, Taiwan)

SDIM 2022

An Architectural Framework for Enabling Secure Decentralized P2P Messaging using DIDComm and Bluetooth Low Energy 1579
Alexander Heireth Enge (Norwegian University of Science and Technology, Norway), Abylay Satybaldy (Norwegian University of Science and Technology, Norway), and Mariusz Nowostawski (Norwegian University of Science and Technology, Norway)

Disruption-Tolerant Local Authentication Method for Continuous and Secure In-Flight Wireless LAN 1587
Hideaki Goto (Tohoku University, Japan)

SESISE 2022

Social Impact of Smart Environments: Software Engineering Perspectives and Challenges 1592
Stuart McDonald (University of Nottingham Ningbo China, China), Dave Towey (University of Nottingham Ningbo China, China), and Vladimir Brusic (University of Nottingham Ningbo China, China)

The Development of Ethically Informed Standards for Intelligent Monitoring Systems of Electric Machines 1598
Kun Shang (University of Nottingham Ningbo China, China), Stuart McDonald (University of Nottingham Ningbo China, China), Giampaolo Buticchi (University of Nottingham Ningbo China, China), and Vladimir Brusic (University of Nottingham Ningbo China, China)

SESS 2022

A Curated Personas and Design Guidelines Tool for Better Supporting Diverse End-Users 1606
Jianing Liu (Monash University, Australia), Jia Shi (Monash University, Australia), Jun Xie (Monash University, Australia), Xinyun Zhang (Monash University, Australia), Zichuan Zhang (Monash University, Australia), John Grundy (Faculty of IT, Monash University, Australia), and Tanjila Kanij (Faculty of IT, Monash University, Australia)

Exploring Author Profiling for Fake News Detection 1614
Shloak Rathod (Aditya Birla World Academy, India)

DESCo: Detecting Emotions from Smart Commands 1620
Sunanda Guha (Missouri State University, USA) and Razib Iqbal (Missouri State University, USA)

Autonomic Dominant Resource Fairness (A-DRF) in Cloud Computing 1626
Amin Fakhartousi (Bournemouth University, United Kingdom), Sofia Meacham (Bournemouth University, United Kingdom), and Keith Phalp (Bournemouth University, United Kingdom)

Dataset Size and Machine Learning - Open NMR Databases as a Case Study 1632
Stefan Kuhn (De Montfort University, United Kingdom), Ricardo Moreira Borges (Federal University of Rio de Janeiro, Brazil), Francesco Venturini (Politecnico di Milano, Italy), and Maurizio Sansotera (Politecnico di Milano, Italy)

Translating SysML Activity Diagrams for nuXmv Verification of an Autonomous Pancreas 1637
Orion Staskal (Iowa State University, USA), Josh Simac (Iowa State University, USA), Logan Swayne (Iowa State University, USA), and Kristin Y. Rozier (Iowa State University, USA)

High-Level Rigorous Template for Analysing Safety Properties of Self-Driving Vehicle Systems 1643
Fahad Alotaibi (University of Southampton, UK), Thai Son Hoang (University of Southampton, UK), and Michael Butler (University of Southampton, UK)

SIS-SS 2022

Measurement of Human Heart Rate: A Cost-Effective Solution to Monitor Cardiovascular Health 1649
Rifat Nawaz (North South University, Bangladesh), Tanjina Afrin Sharna (North South University, Bangladesh), Md. Noor Hossain Akand (North South University, Bangladesh), and Rashedur M. Rahman (North South University, Bangladesh)

Data Provenance for Healthcare: A Blockchain-Based Approach 1655
Salvatore D'Antonio (University of Naples "Parthenope", Italy) and Federica Uccello (University of Naples "Parthenope", Italy)

Graph Signal Processing for IoT Sensor Networks 1661
Anna Sabatini (University Campus Bio-Medico of Rome, Italy) and Luca Vollero (University Campus Bio-Medico of Rome, Italy)

Detection of Floating Objects in Liquids 1667
Anna Sabatini (University Campus Bio-Medico of Rome, Italy), Eleonora Nicolai (University of Rome Tor Vergata, Italy), and Luca Vollero (University Campus Bio-Medico of Rome, Italy)

SSMLS 2022

A Data Science Solution for Mining Weather Data and Transportation Data for Smart Cities 1672
Ben Nguyen (University of Manitoba, Canada), Mark J. Shinnie (University of Manitoba, Canada), Carson K. Leung (University of Manitoba, Canada), Michael R. Kuzie (University of Manitoba, Canada), Nikola N. Kokilev (University of Manitoba, Canada), and Sukhmandeep Kaur (University of Manitoba, Canada)

The Role of Awareness of Mobility Offer and Nudges in Increasing Sustainable Mobility Habits of Citizens: A Case Study from the Munich Region 1678
Stefania Mauro (LINKS Foundation, Italy), Shravan Shinde (Münchner Verkehrs und Tarifverbund GmbH (MVV), Germany), Maurizio Arnone (LINKS Foundation, Italy), Victor Marques Zamith (LINKS Foundation, Italy), Giovanni De Rosa (Herbert Simon Society, Italy), and Davide Pietroni (University "G. D'Annunzio" Chieti Pescara, Italy)

Interplanetary File System in Logistic Networks: A Review 1684
Vittorio Capocasale (Polytechnic University of Turin, Italy), Stefano Musso (Polytechnic University of Turin, Italy), and Guido Perboli (Polytechnic University of Turin, Italy)

A Systematic Literature Review of Current IoT-Based Approaches for Improving Sustainable Public Transportation in Smart Cities 1690
Johannes Breitenbach (University of Bayreuth, Germany), Jan Gross (Aalen University, Germany), Daniel Dittrich (Aalen University, Germany), Pauline Neumann (Aalen University, Germany), Alexander Schilling (Aalen University, Germany), Esra Zaman (Aalen University, Germany), and Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany)

Discrete Choice Experiments to Identify user Preference for Electric Mobility 1696
Davide La Gamba (LINKS Foundation, Italy), Miriam Pirra (Politecnico di Torino, Italy), Francesco Deflorio (Politecnico di Torino, Italy), Luis Montesano (Bitbrain, Spain), Angela Carboni (Politecnico di Torino, Italy), and Maurizio Arnone (LINKS Foundation, Italy)

Innovative Business Models in Ports' Logistics 1702
Stefano Musso (ICOOR and CARS@PoliTO, Turin, Italy), Guido Perboli (ICOOR & CARS@PoliTO, Turin, Italy), Michela Apruzzese (ICOOR & UNIMORE, Reggio Emilia, Italy), Giulia Renzi (ICOOR & UNIMORE, Reggio Emilia, Italy), and Natalia Selini (ICOOR & UNIMORE, Italy)

STA 2022

Algorithmic Input Generation for More Effective Software Testing 1708
Laura Epifanovskaya (Institute for Defense Analyses, USA), Reginald Meeson (Institute for Defense Analyses, USA), Christopher McCormack (Institute for Defense Analyses, USA), Jinseo R. Lee (Institute for Defense Analyses, USA), Robert C. Armstrong (Sandia National Laboratories, USA), and Jackson R. Mayo (Sandia National Laboratories, USA)

An Empirical Study on the Effects of Entry Function Pairs in Fuzzing Smart Contracts 1716
Imran Ashraf (City University of Hong Kong) and W.K. Chan (City University of Hong Kong)

Using Metamorphic Relation Violation Regions to Support a Simulation Framework for the Process of Metamorphic Testing 1722
Zhihao Ying (University of Nottingham Ningbo China, Republic of China), Anthony Bellotti (University of Nottingham Ningbo China, Republic of China), Dave Towey (University of Nottingham Ningbo China, Republic of China), Tsong Yueh Chen (Swinburne University of Technology, Australia), and Zhi Quan Zhou (University of Wollongong, Australia)

STPSA 2022

SSG-AFL: Vulnerability Detection for Reactive Systems using Static Seed Generator Based AFL 1728

Analysis of Privacy Compliance by Classifying Multiple Policies on the Web 1734
Keika Mori (Deloitte Tohmatsu Cyber LLC), Tatsuya Nagai (Deloitte Tohmatsu Cyber LLC), Yuta Takata (Deloitte Tohmatsu Cyber LLC), and Masaki Kamizono (Deloitte Tohmatsu Cyber LLC)

EtherGIS: A Vulnerability Detection Framework for Ethereum Smart Contracts Based on Graph Learning Features 1742
Qingren Zeng (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China), Jiahao He (WeBank Co., Ltd, China), Gansen Zhao (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China), Shuangyin Li (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China), Jingji Yang (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China), Hua Tang (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China), and Haoyu Luo (South China Normal University, China; Key Lab on Cloud Security and Assessment technology of Guangzhou, China)

An Extention of Lazy Abstraction and Refinement for Program Verification 1750
Haowei Liang (Tianjin University of Technology, China), Chunyan Hou (Tianjin University of Technology, China), Jinsong Wang (Tianjin University of Technology, China), and Chen Chen (Nankai University, China)

Blockchain-Based Medical Image Sharing and Automated Critical-Results Notification: A Novel Framework 1756
Jiyoun Randolph (Kennesaw State University, USA), Md Jobair Hossain Faruk (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Maria Valero (Kennesaw State University, USA), Liang Zhao (Kennesaw State University, USA), and Nazmus Sakib (Kennesaw State University, USA)

Instrumenting Microservices for Concurrent Audit Logging: Beyond Horn Clauses 1762
Nicolas D. Ahn (University of the Pacific, USA) and Sepehr Amir-Mohammadian (University of the Pacific, USA)

Systematic Analysis of Deep Learning Model for Vulnerable Code Detection 1768
Mohammad Nazim (Kennesaw State University, USA), Md Jobair Hossain Faruk (Kennesaw State University, USA), Hossain Shahriar (Kennesaw State University, USA), Md Abdullah Hafiz Khan (Kennesaw State University, USA), Mohammad Masum (Kennesaw State University, USA), Nazmus Sakib (Kennesaw State University, USA), and Fan Wu (Tuskegee University, USA)

A Literature Review on Blockchain-Enabled Security and Operation of Cyber-Physical Systems... 1774
Alvi Ataur Khalil (Florida International University, USA), Javier Franco (Florida International University, USA), Imtiaz Parvez (Florida International University, USA), Selcuk Uluagac (Florida International University, USA), Hossain Shahriar (Kennesaw State University, USA), and Mohammad Ashiqur Rahman (Florida International University, USA)

A Review of Dark Web: Trends and Future Directions 1780
Shahriar Sobhan (Kennesaw State University, USA), Timothy Williams (Kennesaw State University, USA), Md Jobair Hossain Faruk (Kennesaw State University, USA), Juan Rodriguez (Kennesaw State University, USA), Masrura Tasnim (Kennesaw State University, USA), Edwin Mathew (Kennesaw State University, USA), Jack Wright (Kennesaw State University, USA), and Hossain Shahriar (Kennesaw State University, USA)

A Systematic Literature Review of Machine Learning Approaches for Detecting Events and Disturbances in Smart Grid Systems 1786
Ricardo Buettner (University of Bayreuth, Fraunhofer FIT, Germany), Johannes Breitenbach (University of Bayreuth, Germany), Jan Gross (Aalen University, Germany), Isabell Krueger (Aalen University, Germany), Hari Gouromichos (Aalen University, Germany), Marvin Listl (Aalen University, Germany), Louis Leicht (Aalen University, Germany), and Thorsten Klier (Aalen University, Germany)

An Access Control Model Considering with Transitions of Access Rights Based on the Blockchain 1792
Hirotsugu Kinoshita (Kanagawa University, Japan) and Tetsuya Morizumi (Kanagawa University, Japan)

Enabling Cyberanalytics using IoT Clusters and Containers 1798
Soin Abdoul Kassif Traore (Kennesaw State University), Maria Valero (Kennesaw State University), Hossain Shahriar (Kennesaw State University), Liang Zhao (Kennesaw State University), Sheikh I. Ahamed (Marquette University), and Ahyoung Lee (Kennesaw State University)

Improving the Derivation of Sound Security Metrics 1804
George O. M. Yee (Aptusinnova Inc., Carleton University, Canada)

Architecture Design and Security Evaluation of Secure Optical Transport Network using Formal Verification 1810
Shion Maeda (The University of Tokyo, Japan), Misato Nakabayashi (NTT Social Informatics Laboratories, Japan), and Tetsuya Okuda (NTT Social Informatics Laboratories, Japan)

TECH 2022

Automated Two-Stage Approach for Damage Detection of Surface Defects in Historical Buildings 1816
Wanpeng Shao (Kyushu Institute of Technology, Japan), Kenichi Kakizaki (Kyushu Institute of Technology, Japan), Shunsuke Araki (Kyushu Institute of Technology, Japan), and Tomohisa Mukai (National Institute for Land and Infrastructure Management, Ministry of Land, Infrastructure, Transport and Tourism, Japan)

Cultural Heritage Assets Optimization Workflow for Interactive System Development 1822
Kedong Chai (Xi'an Jiaotong-Liverpool University, China) and Yue Li (Xi'an Jiaotong-Liverpool University, China)

Author Index **1829**
